The Budcade Guarantee

**Plays or
it's free.**

In writing, on every booking.

If it doesn't run, you don't pay

Any station or game that isn't set up — or fails during the first half of the event — comes off your bill. No argument, no fine print.

Set up with buffer, tested live

We schedule generous load-in time and test each station as it goes live — and if something's not ready, the guarantee covers you.

Zero burden on your team

We plan and staff to run everything ourselves — setup, hosting, teardown — with backup on call, so your team stays right where the sales happen.
